WORK EXPERIENCES

Software Development Engineer Intern Mar 2026 - Jun 2026
R2C.AI *Remote*

- Architected a researcher blogging module, translating requirements into system architecture, feature development, and seamless application integration.
- Developed **25+ RESTful APIs** using Node.js and Express.js, connecting frontend workflows for blog creation, media uploads, comments, sharing, and follower management.
- Implemented Nodemailer email notifications for meeting requests, approvals, payment confirmations, and other events, automating **7+ notification scenarios**.
- Authored and executed **40+ test cases** across blog features, REST APIs, and notification workflows, validating edge cases and integrations before release.
- Evaluated AWS, Azure, and Oracle Cloud for full-platform deployment, identifying opportunities for a potential **20% cost reduction** through cost analysis.
- Gained experience in the **Software Development Life Cycle**, enhancing understanding of development processes and methodologies.

Technologies / Skills Used : *Node.js, Express.js, React.js, MongoDB, Git, Software Development Life Cycle*

PROJECTS

KaaGazz | Github Oct 2026 - Oct 2026

- Architected a **serverless Node.js backend** for a circular economy platform, automating manual waste recovery to address India's **10M-tonne crisis**.
- Engineered an asynchronous queue system using **AWS SQS** and Dead Letter Queues, achieving **99.9% fault tolerance** for concurrent dispatch workflows.
- Developed a smart allocation algorithm on **AWS Lambda**, seamlessly matching resources across **4 user roles** and eliminating **100% of manual NGO coordination**.
- Optimized API performance using **AWS API Gateway** and in-memory caching, reducing read latency by **40%** for real-time tracking across dashboards.

Technologies / Tools Used : *Node.js, AWS Lambda, Amazon DynamoDB, Amazon SQS, API Gateway*

Yatra | Github Sep 2026 - Oct 2026

- Developed a smart hostel pass management system to streamline applications, verification, approvals, and tracking for **2,000 college users**.
- Designed a scalable Supabase PostgreSQL database with relational modeling, indexing, and transactional queries to ensure **efficient data retrieval and consistency**.
- Engineered **40+ REST API endpoints** using Node.js and Express.js, implementing JWT authentication, role-based authorization, structured logging, and rate limiting.
- Integrated unit and integration tests targeting **90% coverage**, alongside asynchronous processing, retry mechanisms, Docker containerization, and CI/CD pipelines.

Technologies / Tools Used : *Node.js, Express.js, React.js, PostgreSQL, Docker, Git*

FindMyProf | Github Aug 2026 - Aug 2026

- Developed an intelligent timetable query system serving **9 academic sections**, **reducing schedule retrieval time by 95%** using natural-language search.
- Engineered a custom data parsing pipeline, **improving tabular data extraction accuracy by 85%** through page-by-page mapping and row-by-row clustering.
- Implemented hierarchical vector embeddings and cosine similarity on clustered rows, achieving **99% retrieval accuracy** and eliminating AI hallucinations.

Technologies / Tools Used : *RAG, VectorDB, Gemini Embeddings, NLP, Node.js, Express.js*

SKILLS

Programming Languages :	C++, Java, Python, JavaScript, SQL, C
Databases :	PostgreSQL, MySQL, MongoDB, DynamoDB, Redis
Frameworks & Libraries :	React.js, Node.js, Express.js, FastAPI, Tailwind CSS
Tools & Platforms :	Docker, Linux, Postman, Git, GitHub Actions, AWS
Relevant Coursework :	Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

EDUCATIONS

GL Bajaj Institute of Technology and Management | Greater Noida, Uttar Pradesh 2024 - 2028
Bachelor of Technology in Computer Science and Data Science *CGPA : 8.32*

Prakash Punj Public School | Patna, Bihar 2022 - 2023
Higher Secondary Education (PCM) *Percentage : 88%*

Prakash Punj Public School | Patna, Bihar 2020 - 2021
Secondary Education *Percentage : 97.3%*

AWARDS & ACHIEVEMENTS

- Solved **400+** DSA problems across LeetCode, GeeksforGeeks, Codeforces, CodeChef, and CSES.
- Qualified for the Google Code Challenge (Round 1) (**Top 15,000**), secured a **Top 5** finish in HackBuzz 2.0 DSA Round 1 (over **100** participants), and earned the Problem Solving (Intermediate) certification from HackerRank.
